

## FARMERS CO-OPERATIVE OF HANSKA

### Courtland Grain Elevator

Dusty Voges, long time site supervisor at Courtland has decided to make a career change and his last day with FHC is today, Friday December 21<sup>st</sup>. Although we are sorry to see Dusty leave, we are very appreciative of his commitment to his customers and his great work ethic and attitude. We wish him the best in the future.

We fully intend to provide members with grain facilities and marketing services although it may look a little different. Outside of the harvest season nearly all the grain activity in Courtland is corn deliveries and all is unloaded at the feed mill. We are exploring technology that will enable the scale the trucks from the feed mill. With the use of cameras, sensors and intercoms we feel this can be a very efficient way to handle the incoming traffic. Until final decisions are made we encourage those who need to deliver grain to Courtland to please give us a call at the numbers provided below.

Grain marketing services will be handled by Jim Johnson and Karen Beranek at the Hanska office. If you have any questions please contact the appropriate person from the contact list below....

Jim Johnson, Grain Division Manager,	507-439-6002 direct
Karen Beranek – Grain Accounting/marketing	507-439-6003 direct
Grant Romberg – Feed Mill Supervisor	507-354-2410 Courtland Mill
Randy Compart – Grain driver/employee	507-380-3447 mobile
