Gold Country Seed Announcement

FCH was recently informed by Monsanto/Gold Country that our seed dealership is being pulled from us. The reason that we were given is that because of our ongoing talks and potential merger, and that dealerships cannot be transferred, they took this action.

FCH has made every attempt in the last few weeks to retain our dealership, but to no avail.

We currently have 3 seed companies – Croplan, Stine, and Federal that we are aligned with, and are confident that we can provide a very competitive lineup of seed, both corn and soybeans, that will match up with any other companies lineup.

As of this time we are not looking at adding a fourth seed company to our lineup, but will keep all our options open.

We apologize for any inconvenience and confusion that this will cause, but be assured that we are fully committed to providing our customers the best genetics that are available. If you have any questions, feel free to give me a call. Thank you for your continued support.
